

Carbon Fiber Sheet - Selection and Quotation Guide

ZD Carbon Fiber

Sheet type, finish, thickness, CNC processing and quotation information | Export B2B guide

www.zdcarbonfiber.com

Common Sheet Options

Sheet type	3K laminate sheet, carbon fiber sheet, carbon fiber plate
Thickness	0.5 / 1 / 1.5 / 2 / 3 / 4 / 5 mm; custom by review
Size	400 x 500 / 500 x 500 / 1000 x 1000 mm; custom
Finish	Glossy / Matte / Semi-matte
Processing	Full sheet, cut-to-size, CNC cutting, drilling, custom shape
Use	Panels, fixtures, covers, tooling, equipment panels, model making

Quotation Checklist

- Required sheet type or target application
- Thickness, size and quantity
- Surface finish and visual requirement
- CNC drawing, hole position or edge requirement
- Tolerance and inspection requirement
- Destination country and document needs

How to Choose the Right Sheet Page

Carbon Fiber Sheet is a general selection page for buyers comparing sheet type, surface finish, thickness, size and processing requirements. Use it as the entry point before selecting a dedicated 3K laminate, CNC cutting, glossy finish or matte finish page.

Recommended Product Route

Buyer need	Recommended page
Visible woven surface	3K Carbon Fiber Laminate Sheet / 3K Carbon Fiber Plate
Cutting or drilling	CNC Carbon Fiber Sheet
Bright visual finish	Glossy Carbon Fiber Sheet
Low-glare finish	Matte Carbon Fiber Sheet
General plate inquiry	Carbon Fiber Plate category

Key Internal Links for Buyers

3K Laminate: <https://www.zdcarbonfiber.com/carbon-fiber-plate/3k-laminated-carbon-fiber-plate.html>

CNC Sheet: <https://www.zdcarbonfiber.com/carbon-fiber-plate/cnc-carbon-fiber-sheet.html>

Glossy / Matte Sheet: use finish-specific pages when surface appearance is the main requirement.

Inquiry CTA

Send sheet type, thickness, size, surface finish, quantity, tolerance, drawing if cutting is needed, application and destination country. We will review quotation, packing details and document options.
